

**CITY OF LANCASTER STANDARD DETAILS
TABLE OF CONTENTS**

STORM DRAINAGE DETAILS

SD-1	Catch Basin Curb Inlet Frame and Grate
SD-2	Catch Basin Details
SD-3	Catch Basin Details 24" Pipe and Larger for Extra Depth Catch Basin
SD-4	Open Throat Catch Basin Details
SD-5	Standard Concrete Drop Inlet
SD-6	Standard Brick Drop Inlet
SD-7	Splash Pad for Flared End Pipe
SD-8	Straight Concrete Headwall and Dimensions
SD-9	Concrete Block Headwall with Wing Walls for all Sizes of Reinforced Concrete Pipe
SD-10	Concrete Block Headwall with Wing Walls
SD-11	Reinforced Concrete Headwall with Wing Walls
SD-12	Standard Reinforced Concrete Headwall with Wing Walls
SD-13	Brick Headwall with Wings for 48" RCP and Under (Without Reinforcing Steel)
SD-14	Brick Headwall with Wing Walls for up to 48" Diameter R.C.P (Without Reinforcing Steel)
SD-15	Dimensions for a Single Pipe Headwall with Wing Walls
SD-16	Dimensions for Single and Double Pipe Headwalls with Wing Walls
SD-17	Typical Silt Fence
SD-18	French Drain Details

SITE DETAILS

SITE-1	Parking Lot Definitions
SITE-2	Parking Layout Dimensions
SITE-3	Parking Plan 90° Parking
SITE-4	Parking Plan 60° Parking One-Way Movement
SITE-5	Parking Plan 45° Angle One-Way Movement
SITE-6	Typical Curb Sections for Parking Lot Details
SITE-7	Parking Barrier Sections

SEWER DETAILS

SS-1	Cast Iron Frame and Cover for Sanitary Sewer Manhole
SS-2	Pre Cast Concrete Manhole
SS-3	Vented Manhole
SS-4	Standard Drop Manhole Connection with Concrete Encasement
SS-5	Force Main Air Release Valve and Manhole
SS-6	Standard Bedding Details for Sanitary Sewer
SS-7	Standard Bedding Detail for PVC Sanitary Sewer Pipe
SS-8	Sanitary Sewer Lateral Connection to Existing Main
SS-9	Sanitary Sewer Lateral Connection to Existing Manhole
SS-10	Residential Pumping Station
SS-11A	Duplex Pump Station, Valve Vault and Emergency Bypass Connection
SS-11B	Duplex Pump Station Section A-A
SS-11C	Duplex Pump Station Section B-B
SS-11D	Duplex Pump Station Valve Vault Section C-C
SS-11E	Electrical Equipment Rack
SS-12	Standard Manhole Channel and Bench
SS-13	Standard Force Main Trench

SS-14	Standard Sewer Line Coupling
SS-15	S.S. Service Lateral Location Procedures for Record Drawings
SS-16	Standard Manhole Step
SS-17	Standard Manhole Boot
SS-18A	Force Main - 1.5" Thru 3" Diameter Connection to Existing Manhole
SS-18B	Force Main - 3" Thru 8" Diameter Connection to Existing Manhole
SS-19	Standard Valve Box/Trace Wire Box Protector
SS-20	Force Main Trace Wire

STREET DETAILS

ST-1	Residential Street Cross-Section 50' Right-of-Way 28' Face to Face of Curbs
ST-2	24" Curb and Gutter
ST-3	Monolithic Sidewalk-Curb Driveway Section
ST-4	Vertical Curb
ST-5	Concrete Sidewalk Detail
ST-6	Industrial or Commercial Concrete Driveway Entrance 10' Radius
ST-7	Concrete Driveway Residential Entrance
ST-8	Grades for Standard Driveway Entrances
ST-9	Details for Type "A" Wheelchair Ramp
ST-10	Details for Type "B" Wheelchair Ramp
ST-11	General Notes for Wheelchair Ramps
ST-12	Examples of Special Situations for Wheelchair Ramps and Depressed Curbs

WATER DETAILS

WL-1	Standard Water Line Trench
WL-2	Blow Off
WL-3	Valve and Valve Box
WL-4	Air Release Valve w/ Vacuum Check Unit in Precast Manhole
WL-5	1" Water Tap and Meter Details
WL-6	3/4" x 5/8" Water Tap and Meter Details
WL-7	Standard Street X-Section Showing Water Tap Depth
WL-8	Typical Service Installation
WL-9	Typical Irrigation System Connection
WL-10	Meter Pit Detail for 2" and 4" Lines Single Domestic Supply w/o By-Pass
WL-11	Meter Pit Detail for 2" and 4" Lines Single Domestic Supply w/ By-Pass
WL-12	Meter Pit Detail for 2" and 4" Lines Multiple Domestic Supply w/o By-Pass
WL-13	Meter Pit Detail for 2" and 4" Lines Multiple Domestic Supply w/ By-Pass
WL-14	Meter Pit Detail for 2" and 4" Lines Single Domestic Supply with Fire Line and By-Pass
WL-15	Meter Pit Detail for 2" and 4" Lines Single Domestic Supply with Irrigation Meter
WL-16	Meter Pit Detail for 2" and 4" Lines Single Domestic Supply w/ Fire Line & Irrigation
Meter	
WL-17	Commercial Meter Pit

WATER AND SEWER GENERAL DETAILS

WS-1	Thrust Blocking Detail
WS-2	Ferrous Materials and Joint Requirements for Water Line and Sewer Line Crossings
WS-3	Typical Pavement Repair for Utility Cut
WS-4	Encasement Pipe Under Highways and Railroads
WS-5	Steel Spider
WS-6	Chain Link Fence Detail

WS-7
WS-8

Double Chain Link Swing Gate
Areas Required for Concrete Blocking for Tees & Bends etc.
